

Kamstrup North American Headquarters Opens

It's official! We warmly welcomed Kamstrup to the City of Roswell this week.

The Danish company is a world-leading supplier of intelligent energy and water metering solutions, and it entered the U.S. sales market more than four years ago. While the company currently manufactures all products in Denmark, it anticipates all U.S. and North American production will soon be performed at its new North American headquarters here in Roswell.

We're beyond thrilled Kamstrup chose to open its doors in Roswell and are excited to see what the future holds!

Check out the video and photo gallery below from the ribbon cutting.
