The largest clay court tennis center in the nation—the Angela Krause Tennis, Pickleball and Fitness Center—may soon be making its home in Roswell, Georgia. The new, 135-court facility would be located on 60 acres of land in Big Creek Park, located off Old Alabama Road, through a partnership with the City of Roswell, which will be voted upon during the city council meeting on Monday, August 13, 2018.

If approved, the \$60-70 million project would break ground in 2019, would happen in three phases, and would include more than 80 clay courts when finished, which is more than double the number of clay courts currently available in one location anywhere in the country. The facility would also feature traditional hard courts and grass courts, as well as a tournament-size, 24-court pickleball facility.
